ABOUT US

Zozan Mensucat plays a pioneering role in the textile world with its focus on sustainability and innovation. With our wide range of products and recycling services—from yarns to knitwear recycling, from cotton products to polyester-cotton blends—we aim to set a new standard in the textile industry.

Our Products and Services

At **Zozan Mensucat**, we process not only synthetic materials such as acrylic and polyester in our yarns but also natural cotton fibers. Our product range appeals to a broad customer base, from the world of fashion to industrial use. In addition, we offer recycling services for knitwear, cotton, and yarn with the aim of minimizing textile waste and using resources more efficiently. Through these services, we contribute to the sustainability of the textile industry.

Sustainability

Zozan Textiles is aware that the resources of our world are limited and very valuable and therefore has a more environmentally friendly approach in its production processes.

Our Production Facility

Our **24/7** activities continue in **Gaziantep OSB Organized** Industrial Zone.

Acrylic

ZOZAN
MENSUCAT

3 DENIER OPENED ACRYLIC FIBER WASTE

<i>WEIGHT (G/M²)</i>	<i>USAGE AREA</i>
100 G/M²	Textile and clothing industry
150 G/M²	Pillow and quilt filling materials
200 G/M²	Furniture upholstery
250 G/M²	Automotive interior trim
300 G/M²	Industry and decoration

ZOZAN
MENSUCAT

3 DENIER ACRYLIC FIBER

<i>WEIGHT (G/M²)</i>	<i>USAGE AREA</i>
100 G/M²	Light knitwear and thin fabrics
150 G/M²	Sweaters, scarves, and accessories
200 G/M²	Blanket and home textile products
250 G/M²	Upholstery and industrial textiles
300 G/M²	Heavy-duty insulation and padding

ZOZAN
MENSUCAT

ACRYLIC WASTE

<i>WEIGHT (G/M²)</i>	<i>USAGE AREA</i>
100 G/M²	Textile cleaning and polishing
150 G/M²	Delicate surface cleaning
200 G/M²	Filling for cushions and toys
250 G/M²	Automotive and machinery cleaning
300 G/M²	Industrial cleaning and insulation

ZOZAN
MENSUCAT

ACRYLIC STAPLE FIBER

WEIGHT (G/M²)	USAGE AREA
100 G/M²	Nonwoven fabric and medical textiles
150 G/M²	Filling material (pillows, toys, blankets)
200 G/M²	Knitwear and yarn blends
250 G/M²	Felt and insulation materials
300 G/M²	Filter and industrial textiles

ZOZAN
MENSUCAT

ACRYLIC TOW WASTE

WEIGHT (G/M²)	USAGE AREA
100 G/M²	Raw material for yarn production
150 G/M²	Blending with wool, cotton, or polyester fibers
200 G/M²	Carpet and rug manufacturing
250 G/M²	Upholstery and home textile
300 G/M²	Industrial textile and insulation

ZOZAN
MENSUCAT

35 mm Staple Acrylic Fiber

WEIGHT (G/M²)	USAGE AREA
100 G/M²	Nonwoven fabrics and hygiene products
150 G/M²	Filling material for pillows and quilts
200 G/M²	Blending in yarn and knitwear production
250 G/M²	Felt and insulation materials
300 G/M²	Industrial textiles and filter products

Cotton

ZOZAN
MENSUCAT

PICKER WASTE

WEIGHT (G/M²)	USAGE AREA
100 G/M²	Low-cost filling material for pillows and cushions
150 G/M²	Nonwoven and felt manufacturing
200 G/M²	Insulation and padding products
250 G/M²	Yarn and textile recycling
300 G/M²	Automotive and industrial applications

ZOZAN
MENSUCAT

COTTON FIBER WASTE

WEIGHT (G/M²)	USAGE AREA
100 G/M²	Cleaning and polishing in textile industry
150 G/M²	Absorbent material in hospitals and clinics
200 G/M²	Filling for pillows and soft toys
250 G/M²	Yarn recycling and blending
300 G/M²	Industrial cleaning and insulation

ZOZAN
MENSUCAT

COTTON SLIVER

WEIGHT (G/M²)	USAGE AREA
100 G/M²	Raw material for spinning and yarn production
150 G/M²	Absorbent and medical products
200 G/M²	Cotton balls and cosmetic products
250 G/M²	Blending with synthetic fibers
300 G/M²	Industrial and technical textiles

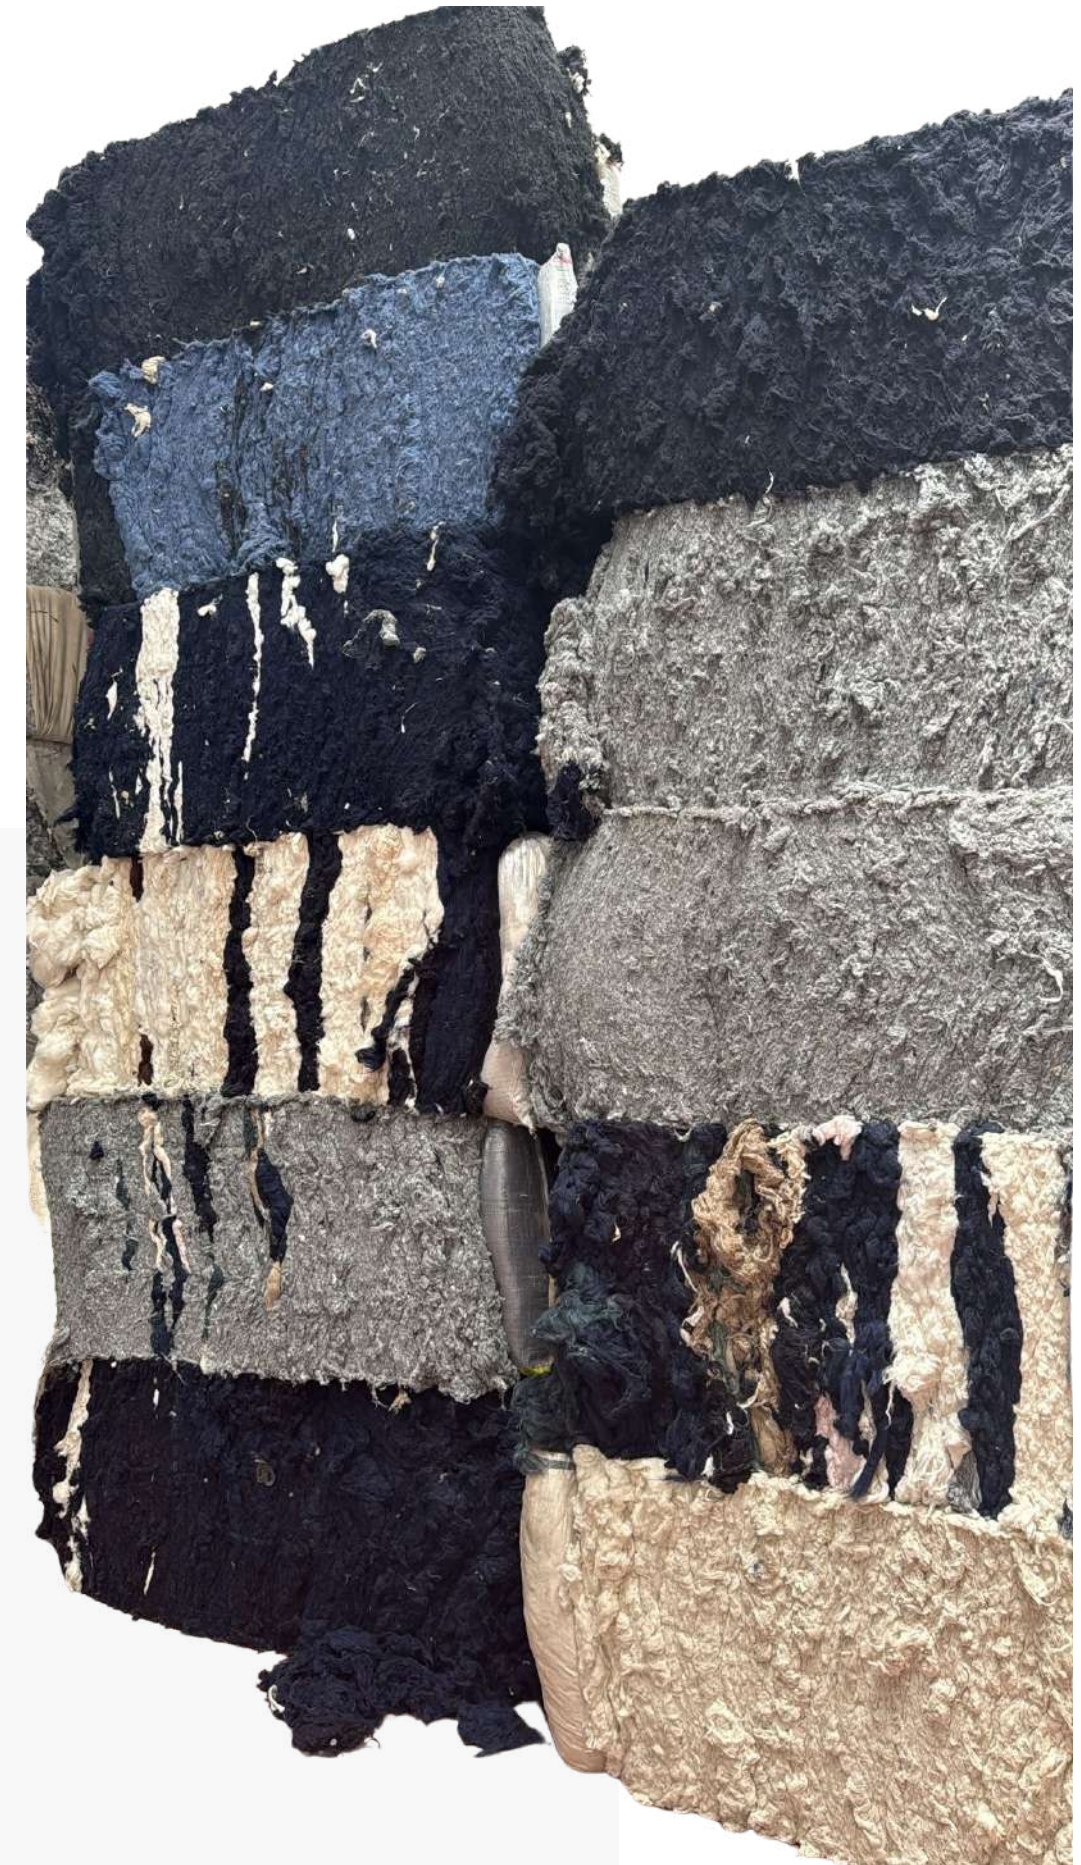

ZOZAN
MENSUCAT

Cotton Polyester Piromofil

WEIGHT (G/M²)	USAGE AREA
100 G/M²	Nonwoven fabrics and medical textiles
150 G/M²	Filling material for pillows and blankets
200 G/M²	Blending in yarn and knitwear production
250 G/M²	Upholstery and home textiles
300 G/M²	Industrial textiles and insulation materials
